

Macintosh OSX Wireless Packet

Step 1 - Register

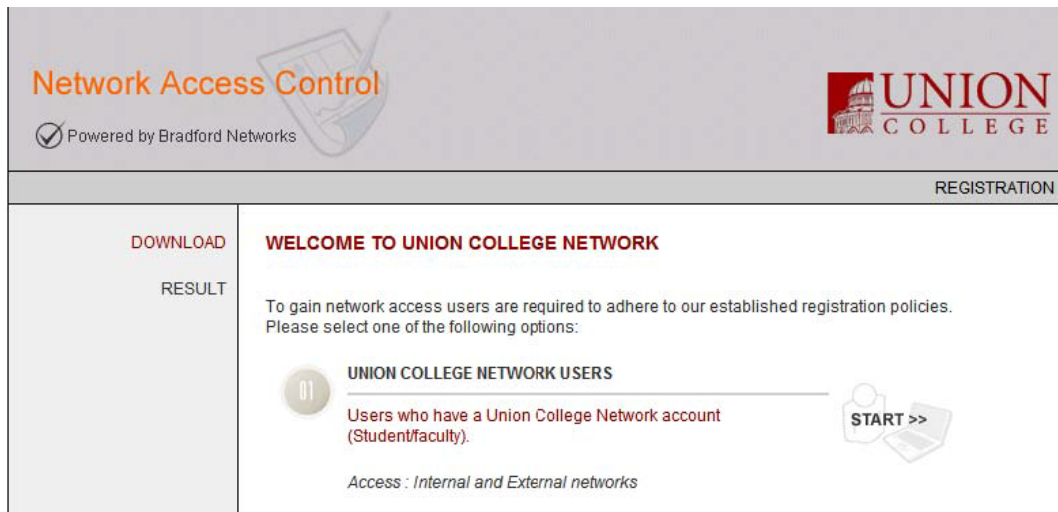

1. Connect to the Union College wireless network (ssid union) and then open a web browser. You will be automatically redirected to the Union College Responsible Use Policy Web Page. Read thru the policy and then scroll down to the bottom of the page to accept the policy and continue with the registration process.

**Please read the following Policy on Responsible Use of Union College Computing and Network Resources
Dated 6-8-2006**

Scroll down to read the entire policy and then click on the Accept button to continue. By clicking on Accept, you agree to this policy

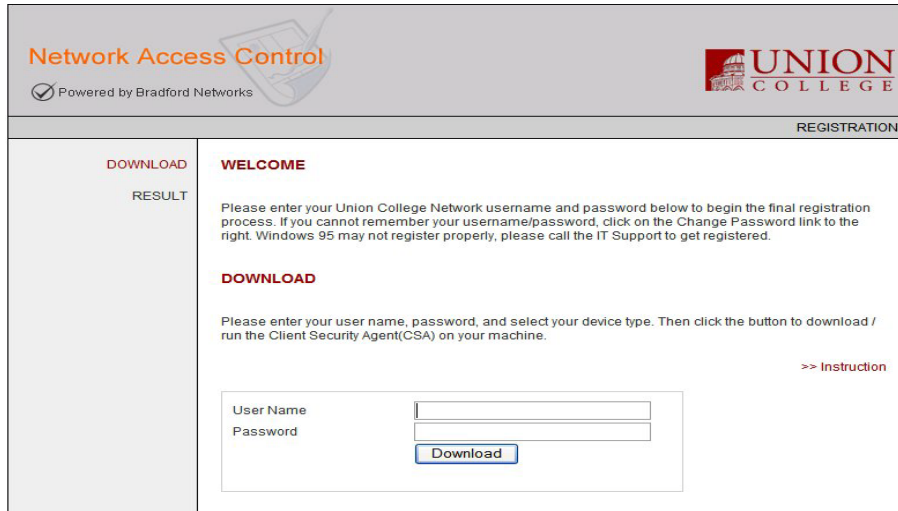

2. After clicking on **Accept**, you will be automatically redirected to the Registration Web Page. Click on the **Start** link for **Union College Network Users** to begin the registration process.

The screenshot shows the Network Access Control (NAC) registration page. At the top left, it says "Network Access Control" and "Powered by Bradford Networks". At the top right is the Union College logo. Below the header, the word "REGISTRATION" is centered. On the left side, there is a sidebar with "DOWNLOAD" and "RESULT" links. The main content area is titled "WELCOME TO UNION COLLEGE NETWORK" and contains the text: "To gain network access users are required to adhere to our established registration policies. Please select one of the following options:". Below this, there is a section for "UNION COLLEGE NETWORK USERS" with a sub-heading "Users who have a Union College Network account (Student/faculty)." and a "START >>" button with a laptop icon. At the bottom of this section, it says "Access: Internal and External networks".

Main Registration Page

- Next, enter your e-mail username and password and then click on the **Download** button to continue.

- You will be prompted to download CSA.app. Click on **Download** to download this to your desktop.

- Next, double-click on the **CSA** icon on your desktop to run the application.

- Follow the steps on screen to complete registration. Please be patient while the CSA application scans your machine. It will scan your computer to make sure that it meets the minimum operating system and security requirements for Union's network. If any of these requirements are not met, you will be redirected to a web page explaining what did not pass and giving you instructions on how to correct this issue. If any remediation is needed, please complete the necessary items and then go thru this packet again to re-scan your machine.

7. Upon successful completion of the security scan, you will get a message that your machine meets the security requirements. At this time, **restart your computer**. After your computer is restarted, your network connection will be re-established and you will be connected to the network.

The screenshot shows a web interface for Network Access Control. At the top left, it says "Network Access Control" in orange text, with a checkmark icon and "Powered by Bradford Networks" below it. On the top right is the Union College logo. A horizontal line separates the header from the main content area, which is titled "REGISTRATION" on the right. Below this, there is a table with two columns. The left column has a "DOWNLOAD" link and a "RESULT" link. The right column has a "RESULT" heading and the text "You have successfully registered on the network."

REGISTRATION	
DOWNLOAD	RESULT
RESULT	You have successfully registered on the network.
