The Committee on Teaching
presents

Tips on Teaching
Your Questions Answered

Tuesday, January 20th
12:50-1:45pm
Everest Lounge

Have you ever been presented with a scenario in the classroom that you didn’t know how to handle? Do you have questions about teaching you’ve been reluctant to ask advice about? Interested in tips to increase your teaching effectiveness? Join our panel of experts – Alan Taylor (Mathematics), Eshragh Motahar (Economics), Charles Batson (Modern Languages), and Ann Anderson (Mechanical Engineering) – as they answer your questions about teaching at Union and discuss the concerns most important to you. All are welcome, and junior faculty are particularly encouraged to attend.

Come with your questions on Tuesday, or, to have them presented anonymously, email them in advance to surmanr@union.edu.
