Attend an orientation to learn Handshake, our new career management system. Handshake will allow students to selectively search and apply to internships available in summer and during the academic year. You can find post-grad employment opportunities, tailoring the search toward your field of interest. Register for on and off campus career related events and programs throughout the year. Schedule one-on-one appointments with a career advisor. Learn how to get started with the Becker Career Center. It all starts with a Handshake!

Students are encouraged to bring their laptops. Computers will be available.
