Dear Community:

There is a high wind and heavy rain warning in effect for our area until approximately 6:00 am Monday morning.

Information on what to do: https://www.ready.gov/severe-weather

Please be prepared for possible power loss and avoid being outside, especially during periods of high winds. High winds may result in flying debris, fallen power lines, trees and tree limbs. Avoid driving through road surface flooding as depth and undersurface condition will be unknown. Please call Campus Safety if building water is seen accumulating.

Stay tuned to local radio, television and refer to personal media devices for up to date information.

Campus Safety is available as always at 518-388-6911
