## Safety Suggestions

1. Be alert to your surroundings. Stay in well-lit areas if possible, and consciously avoid areas that are not well lit. Keep to familiar, well traveled areas if possible. Do not walk alone at night — travel with friends.
2. Walk confidently, assertively, eyes looking around. An attacker looks for someone who appears vulnerable and passive.
3. Wear clothes and shoes that give you some freedom of movement.
4. Be careful when people stop you for directions or help. This tactic is often used to put you in a vulnerable position.
5. Tell someone where you are going and when you will return.
6. Have your keys in hand and ready to unlock your door.
7. Always keep your door locked.
