

Below are links to specific internship and job opportunities as well as employment databases for students interested in psychology. This list is meant to provide you with both specific internships to apply to as well as hints for finding internships and jobs of potential interest. Hospitals, Mental Health Clinics, Community Centers, and Universities are all places to search for internships within the Psychology field. Speak to a Career Center Staff Member for assistance locating additional opportunities. For additional information, visit Union's Psychology Department website at <http://muse.union.edu/psychology/>.
