Independent Auditors’ Report

The Board of Trustees
Union College:

We have audited the accompanying financial statements of Union College, which comprise the statements of financial position as of June 30, 2016 and 2015, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Union College as of June 30, 2016 and 2015, and the changes in its net assets and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Cash and cash equivalents, end of year $ 3,661,299  22,912,449

Supplemental data:
Interest paid $ 4,506,563  5,243,787
Change in construction costs payable (3,594,684)  4,625,363
Change in receivable for investments sold (2,920,688)  1,816,085

See accompanying notes to financial statements.
1) Summary of Significant Accounting Policies

(a) Organization

Union College (the College) was founded in 1795 and is a coeducational, independent, liberal arts, and engineering college located in Schenectady, New York. The College is a scholarly community dedicated to shaping the future and to understanding the past. Faculty, staff and administrators welcome diverse and talented students into the community, work closely with them to provide a broad and deep education, and guide them in finding and cultivating their passions. The College does this with a wide range of disciplines and interdisciplinary programs in Liberal Arts and Engineering, as well as academic, athletic, cultural, and social activities, including opportunities to study abroad and to participate in undergraduate research and community service. The College develops in its students the analytic and reflective abilities needed to become engaged, innovative, and ethical contributors to an increasingly diverse, global and technologically complex society.

(b) Basis of Presentation

The financial statements of the College have been prepared on the accrual basis of accounting and in accordance with U.S. generally accepted accounting principles (GAAP). Permanently restricted net assets are those that are subject to donor-imposed stipulations that they be maintained in perpetuity by the College. Generally, the donors of these assets permit the College to use all or part of the investment return on these assets to support program activities such as financial aid and instruction. Such assets primarily include the College’s permanent endowment funds. Temporarily restricted net assets carry specific, donor-imposed stipulations that can be fulfilled by actions of the College pursuant to those stipulations or that expire by the passage of time. Temporarily restricted net assets are generally available for program purposes such as financial aid, specified operating activities, facilities, and equipment. Unrestricted net assets are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the College’s Board of Trustees or may otherwise be limited by contractual agreements with outside parties.

Unconditional contributions are recognized as contributions receivable at their estimated net present value when pledged. Contributions and investment return with donor-imposed restrictions are reported as permanently or temporarily restricted revenues and net assets. Temporarily restricted net assets are reclassified to unrestricted net assets when the College satisfies the donor-imposed restriction. Temporarily restricted contributions and investment return received and expended for the restricted purpose in the same fiscal year are recorded in unrestricted net assets. Expenses are reported as decreases in unrestricted net assets.

Endowment net assets include permanently restricted net assets and certain unrestricted and temporarily restricted net assets. Endowment net asset activities include realized and unrealized gains on investments not used to support current operations, investment return in excess or deficit of the College’s spending policy for the year, and additions to or changes in the value of split-interest arrangements and life income and endowment gifts.

The statement of activities reflects a subtotal for the change in net assets from operations. This subtotal reflects revenues the College received for operating purposes, including investment return used for operations and all expenses. Nonoperating activity reflects all other activity, including, but not limited
to, the investment return in excess of the amount appropriated under the Board of Trustees’ approved spending formula and contributions for endowment and plant purposes.

(c) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions include the fair value of certain nonmarketable investments, valuation allowances for receivables and the accrual for postretirement benefits. These estimates and assumptions are based on management’s best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from these estimates. Changes in those estimates resulting from continuing changes in the economic environment will be reflected in the financial statements in future periods.

(d) Cash and Cash Equivalents

Cash and cash equivalents, representing operating funds, include investments with an original maturity of three months or less.

(e) Investments

Investments are reported in the financial statements at fair value. Investment return includes interest income and dividends and net realized and unrealized gains (losses). The fair value of fixed income and publicly traded equity securities is based upon quoted market prices obtained from active markets, or observable prices that are based on inputs not in quoted markets, but corroborated by market data, as applicable. Shares in mutual funds are based on share values reported by the funds as of the last business day of the fiscal year. Limited partnership interests, private equity and venture capital, as well as other nonmarketable investments, including hedge funds, for which a readily determinable fair value does not exist, are carried at net asset values (or its equivalent) (NAV) provided by the investment managers. Such alternative investment funds may hold securities or other financial instruments for which a ready market exists and are priced accordingly. In addition, such funds may hold assets that require the estimation of fair values in the absence of readily determinable market values. Such valuations are determined by fund managers and consider variables such as financial performance of investments, including comparison of comparable companies’ earnings multiples, cash flows analysis, recent sales prices of investments, and other pertinent information and may reflect discounts for the illiquid nature of certain investments held. Because of the inherent uncertainty of valuation for these investments, the investment manager’s estimate may differ from the values that would have been used had a ready market existed. The College reviews and evaluates the values provided by the investment managers and agrees with the valuation methods and assumptions used in determining the fair value of the alternative investments.
The College utilizes the NAV reported by the managers of each of the alternative investment funds as a practical expedient for estimating the fair value of each investment. These investments are redeemable at NAV under the original terms of the subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by these funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the College’s interests in the funds. Changes to the liquidity provisions of the funds may also significantly impact the fair value of the College’s interest in the funds. Additionally, although certain investments may be sold in a secondary market transaction, subject to meeting certain requirements of the governing documents of the funds, the secondary market is not active and individual transactions are not necessarily observable. It is therefore reasonably possible that if the College were to sell a fund in the secondary market, the sale could occur at an amount different from the reported value, and the difference could be material.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. The Investment Committee of the College’s Board of Trustees continually monitors investment market conditions and the impact on the College’s investment portfolio. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

(f) Irrevocable Trusts

Several donors have established irrevocable trusts whereby the College is a beneficiary, but not the trustee. The present value of the portion of the trusts estimated to be distributable to the College upon the termination of the trusts is recorded as an asset of the College.

(g) Land, Buildings, and Equipment, Net

Land, buildings, and equipment are recorded at cost, including interest on funds borrowed to finance construction, at the date of acquisition or estimated fair value at the date of donation. The College’s policy is to capitalize assets of $2,000 and over. Depreciation is recorded using the straight-line method with estimated useful lives used in the calculation of depreciation by major category of assets as follows:

<table>
<thead>
<tr>
<th>Asset Type</th>
<th>Useful Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Buildings and building improvements</td>
<td>40 years</td>
</tr>
<tr>
<td>Equipment:</td>
<td></td>
</tr>
<tr>
<td>Furniture and other improvements</td>
<td>10 years</td>
</tr>
<tr>
<td>Vehicles</td>
<td>7 years</td>
</tr>
<tr>
<td>Computer equipment</td>
<td>3 years</td>
</tr>
<tr>
<td>Library books</td>
<td>10 years</td>
</tr>
</tbody>
</table>

(h) Deposits and Advances

Deposits and advances include student fees related to the College’s summer session and other unearned revenue.
(i) Federal Student Loan Funds
This liability represents Perkins Loan funds provided to students by the federal government through the College. The College is required to collect the loans on behalf of the federal government. The amount due from the students is reported in the College’s financial statements as a component of notes receivable.

(j) Pooled Life Income and Charitable Gift Annuities Payable
The liability for the present value of the deferred gifts is based upon estimates of the life expectancy of donors and beneficiaries and discount rates. Circumstances affecting these estimates can change the estimate of the liability in future periods.

(k) Derivative Instruments and Hedging Activities
The College recognizes derivative instruments in the financial statements at fair value regardless of the purpose or intent for holding them. As of June 30, 2016 and 2015, the College had one interest rate swap that is adjusted to fair value, based upon information provided by the financial institution. The interest rate swap would be classified as Level 2 in the fair value hierarchy.

(l) Revenue Recognition
Tuition and fees and certain auxiliary enterprise revenues are earned over the academic year as services are provided. Funds received in advance of services provided are included in deposits and advances.

(m) Sponsored Research and Programs
Sponsored activities include various research and instructional programs funded by external parties including the federal government, state governments, and private foundations.

(n) Auxiliary Operations
Auxiliary operations include dining services, residence halls, the College bookstore and ice hockey rink.

(o) Functional Expenses
Depreciation, operations and maintenance costs, interest expense, and employee benefits are allocated to the functional expense categories reported within the operating section of the statements of activities. Depreciation and operations and maintenance costs are allocated based upon the estimated use of facilities and equipment. Interest expense is allocated based on specific identification of the use of debt proceeds. Employee benefits are allocated in relation to salary expense.

(p) Tax Status
The College is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from income tax on related income.

The College recognizes the effect of income tax positions only if those positions are more likely than not of being sustained by the relevant tax authority. Changes in recognition or measurement are
reflected in the period in which the change in judgment occurs. The College believes it has taken no significant uncertain tax positions.

(q) Commitments and Contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, and other sources are recorded when it is possible that a liability has been incurred and the amount can be reasonably estimated. Legal costs associated with loss contingencies are expensed as incurred.

The College is subject to legal proceedings and claims that arise in the ordinary course of its business. In the opinion of management, the amount of any ultimate liability with respect to those actions will not materially affect the College’s financial statements.

The College recognizes a liability for the fair value of conditional asset retirement obligations if their fair values can be reasonably estimated. This liability is initially recorded as an increase to the associated asset and depreciated over the remaining useful life of the asset. The College has identified asbestos abatement as a conditional asset retirement obligation. Asbestos abatement costs are estimated using a per square foot estimate for each impacted location. As of June 30, 2016 and 2015, the College has recorded a liability of $1,386,690 and $1,488,190, respectively, representing the estimated present value of these conditional asset retirement obligations.

Other conditional asset retirement obligations may exist that are not estimable until a triggering event occurs (e.g., building sold) due to the absence of a range of potential settlement dates. Presently, the College does not have sufficient information to estimate the fair value of these obligations but does not believe these items are material to the College’s financial statements.

(r) Reclassifications

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

(2) Notes and Accounts Receivable

The College extends credit, primarily to students, in the form of notes and accounts receivable for educational expenses. Notes receivable for student loans are expected to be collected within 15 years and interest rates average approximately 7%.

Additionally, notes receivable include employee housing programs, which are expected to be collected within 30 years with interest rates averaging approximately 5.50%.

Notes receivable are recorded at their current unpaid principal balance and associated interest income is accrued based on the principal amount outstanding and applicable interest rates. An allowance for doubtful accounts is recorded, which represents the amount which, in the opinion of management of the College, is necessary to account for probable losses related to current notes receivable. This allowance is determined based upon numerous considerations, including economic conditions, the specific composition of the notes receivable balance, as well as trends of delinquencies and write-offs. On a periodic basis, these factors are considered and the allowance for doubtful accounts is adjusted accordingly with a corresponding adjustment to the provision for allowance for doubtful notes and accounts receivable.
Notes and accounts receivable consist of the following at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Notes receivable</td>
<td>$7,859,718</td>
<td>$8,613,700</td>
</tr>
<tr>
<td>Accounts receivable</td>
<td>3,948,286</td>
<td>4,363,206</td>
</tr>
<tr>
<td></td>
<td>11,808,004</td>
<td>12,976,906</td>
</tr>
<tr>
<td>Less allowance for doubtful accounts</td>
<td>1,763,518</td>
<td>2,288,062</td>
</tr>
<tr>
<td></td>
<td>$10,044,486</td>
<td>$10,688,844</td>
</tr>
</tbody>
</table>

(3) **Pledges Receivable**

Pledges receivable are expected to be collected as follows at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Less than one year</td>
<td>$2,429,244</td>
<td>$2,066,556</td>
</tr>
<tr>
<td>Between one year and five years</td>
<td>25,688,616</td>
<td>9,719,793</td>
</tr>
<tr>
<td>Greater than five years</td>
<td>12,900,126</td>
<td>8,000,200</td>
</tr>
<tr>
<td></td>
<td>41,017,986</td>
<td>19,786,549</td>
</tr>
<tr>
<td>Less:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Present value discount (0.72%–4.92%)</td>
<td>2,127,635</td>
<td>1,669,291</td>
</tr>
<tr>
<td>Allowance for doubtful pledges</td>
<td>134,520</td>
<td>425,938</td>
</tr>
<tr>
<td></td>
<td>$38,755,831</td>
<td>17,691,320</td>
</tr>
</tbody>
</table>

Pledges receivable at June 30, 2016, includes pledges from four donors that comprise approximately 75% of the balance before the impact of the present value discount and allowance for doubtful pledges.
(4) Investments and Fair Value

The fair value and cost of investments by type are as follows at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Fair value</td>

</tr>
<tr>
<td></td>
<td>$ 428,128,109</td>
<td>353,028,845</td>
</tr>
</tbody>
</table>

The College utilizes an endowment spending policy that emphasizes total return. Total return consists of current yield (primarily interest and dividends) as well as the realized and unrealized gains and losses of pooled investments. The College’s Board of Trustees designates a portion of the College’s total investment return for support of current operations; the remainder is retained to support operations of future years and to offset potential market declines. The pooled endowment total return for the years ended June 30, 2016 and 2015, was approximately (9.8%) and 8.6%, respectively.

The following schedule summarizes the investment return and its classification in the statements of activities:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest income and dividends</td>
<td>$ 1,914,205</td>
<td>1,271,654</td>

<td>33,557,101</td>
</tr>
<tr>
<td>Investment return designated for current operations</td>
<td>20,484,097</td>
<td>18,809,115</td>
</tr>
<tr>
<td>Investment return net of amounts designated for current operations</td>
<td>$ (58,840,083)</td>
<td>14,747,986</td>
</tr>
</tbody>
</table>

(Continued)
Investment management fees (including any incentive fees) were approximately $5,598,000 and $7,985,000 in 2016 and 2015, respectively. In 2016, fees paid of approximately $1,172,000 were netted against interest income and dividends. The remaining fees are netted against endowment returns.

(a) **Fair Value**

Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. Except for investments reported at NAV as a practical expedient to estimate fair value, the College uses a three-tiered hierarchy to categorize those assets and liabilities carried at fair value based on the valuation methodologies employed. Financial instruments measured and reported at fair value are classified and disclosed in one of the following categories:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the College has the ability to access at the measurement date.
- Level 2 inputs are observable prices that are based on inputs not quoted in active markets, but corroborated by market data.
- Level 3 inputs are unobservable inputs that are used when little or no market data is available.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Due from broker represents amounts receivable from unsettled sales and is classified as Level 1 in the fair value hierarchy.
The College’s investments as of June 30, 2016, are summarized in the following table:

**Total investments measured at NAV** | 364,818,532 |

**Total investments** | $480,775,402 |

There were no Level 3 investments, nor were there transfers between Level 1 and Level 2 investments during the fiscal year ended June 30, 2016.

**(b) Liquidity**

The limitations and restrictions on the College’s ability to redeem or sell these investments vary by investment and range from required notice periods (generally 30 to 180 days after initial lock-up periods) for certain limited partnership and hedge funds, to specified terms at inception (generally 10 years) associated with private equity and venture capital interests. Based upon the terms and
conditions in effect at June 30, 2016, the College’s investment funds can be redeemed or sold as follows:

Investments redemption period:

<table>
<thead>
<tr>
<th>Period</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Daily</td>
<td>$107,425,139</td>
</tr>
<tr>

<td>Lock-up until liquidated</td>
<td>59,318,859</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$428,128,109</strong></td>
</tr>
</tbody>
</table>

Investment funds that are in the lock-up until liquidation category are primarily related to private equity and venture capital investments. The period of time until liquidation is not necessarily determinable by management, as liquidation terms are at the discretion of the applicable fund’s investment manager subject to market conditions and the underlying complexities of the individual investments. These liquidity restrictions have been in effect since the initial purchase of the applicable funds, which date back as far as 2002.

Under the terms of certain limited partnership agreements, the College is obligated periodically to advance additional funding for certain funds that the College is invested in. At June 30, 2016, the College had commitments of approximately $19,837,000, due through June 2026, for which capital calls had not been exercised. Such commitments generally have fixed expiration dates or other termination clauses. The College maintains sufficient liquidity in its investment portfolio to cover such calls.

(5) Endowment

The College’s endowment and similar funds consist of gifts restricted by donors, unrestricted net assets designated by management and the Board of Trustees for long-term support of the College’s activities, and the accumulated investment return on these gifts and designated assets. Accumulated investment return consists of total endowment net investment return that has not been appropriated by the Board of Trustees for expenditure to support the operating activities of the College. Generally, only a portion of accumulated net investment return is made available for spending each year in accordance with an endowment utilization policy approved by the Board of Trustees and in accordance with the laws of the State of New York.

College designated endowment funds are unrestricted net assets that may be re-designated for authorized expenditures. At June 30, 2016 and 2015, endowment and similar funds balances are approximately $389,200,000 and $441,000,000, respectively, which includes pooled endowment net assets of approximately $360,000,000 and $410,400,000, respectively.

The College follows the New York Uniform Prudent Management of Institutional Funds Act (NYPMIFA) in the management of its endowment. The College has interpreted NYPMIFA as allowing the College to
spend or accumulate the amount of an endowment fund that the College determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established, subject to the intent of the donor as expressed in the gift instrument. The College classifies as permanently restricted net assets (a) the original values of gifts donated to permanent endowments, (b) the original values of subsequent gifts to permanent endowments, and (c) accumulations to permanent endowments made in accordance with the directions of the applicable donors’ gift instruments at the times the accumulations are added to the funds. The portion of a donor restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for spending by the College’s Board of Trustees in a manner consistent with the standard of prudence prescribed by NYPMIFA.

In accordance with NYPMIFA, the Investment Committee of the College’s Board of Trustees considers the following factors in making a determination to appropriate or accumulate endowment funds:

- The duration and preservation of the fund
- The purposes of the College and the endowment fund
- General economic conditions
- The expected total return from income and the appreciation of investments
- Other resources of the College
- Where appropriate and where circumstances would otherwise warrant, alternatives to expenditure of an endowment fund, giving due consideration to the effect that such alternatives may have on the College
- The investment policies of the College

Total endowment net assets are classified as follows at June 30:

<table>

(a) Spending Policy

The College has a policy of appropriating for distribution to the budget each year a percentage of its pooled endowment based on the three-year average market value as of June 30, with a two-year lag. For the year ended June 30, 2016, the three fiscal years used in the calculation are the fiscal years ended June 30, 2012, 2013, and 2014. For the year ended June 30, 2015, the three fiscal years used in the calculation are the fiscal years ended June 30, 2011, 2012, and 2013.

The total pooled endowment spending was 5.68% and 5.63% for the fiscal years ended June 30, 2016 and 2015, respectively. This rate includes the base spending rate of 4.97% and 4.91% for the fiscal years ended June 30, 2016 and 2015, respectively, as well as additional spending that was undertaken to launch the College’s Minerva Houses (the U2K initiative). The Board of Trustees approved in 2001 additional endowment spending to cover the debt service and other costs associated with the Minerva House System project, one of the College’s most important academic initiatives.

As described in the College’s Strategic Plan, the College plans to reduce total spending. The goal of reducing the spending rate has prompted measures including the dedication of a significant segment of the current capital campaign to endowment support, in order to provide income to support the College’s operating budget and reinvestment of a significant portion of recent variances from budget into the endowment.

(b) Return Objectives and Risk Parameters

Investment objectives focus on generating a return sufficient to cover the spending rate, inflation, and the preservation of the purchasing power of the endowment while minimizing investment risk in the portfolio. The College is committed to a long-term investment policy that is based on balancing principles of strong growth over time, diversity of the portfolio, liquidity for the annual draw, and benchmarking against market indices and appropriate peer schools. Growth in the endowment depends on contributions to the endowment from capital campaigns, the success of investment management, and the rate at which income is withdrawn from the endowment in support of the College’s operating budget. The Investment Committee of the College’s Board of Trustees meets quarterly to discuss various issues such as investment performance, market outlook, and liquidity needs.

(c) Funds with Deficiencies

As of June 30, 2016 and 2015, certain endowment funds have a current market value per share that is less than the original market value per share at the time of gift. Where normal investment performance has driven the endowment fund below the historic dollar value, the account is commonly termed “underwater”.

For funds that are underwater, the gap between the current income and the spending formula is covered through appropriations from other board designated endowments and accumulated realized gains on these board designated endowments or other unrestricted funds. At June 30, 2016, 265 endowment accounts (approximately 22% of the total number of pooled endowment accounts), totaling approximately $48,600,000, were underwater with total market value less than book of approximately $5,000,000. At June 30, 2015, 37 endowment accounts (approximately 3% of the total number of
pooled endowment accounts), totaling approximately $11,000,000, were underwater with total market value less than book of approximately $870,000.

(6) Land, Buildings, and Equipment

The following is a summary of land, buildings, and equipment at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Land</td>

</tr>
</tbody>
</table>

Capitalized interest was $803,958 and $0 during the years ended June 30, 2016 and 2015, respectively. Depreciation expense and change in asset retirement obligation was $9,636,784 and $9,408,654 for the years ended June 30, 2016 and 2015, respectively. For the years ended June 30, 2016 and 2015, fixed assets (original cost) disposed were $638,147 and $532,141, respectively, resulting in losses on disposal of $19,064 and $27,027, respectively.

At June 30, 2016, the College has outstanding contracts totaling approximately $7,500,000 for the purchase and renovation of certain properties. Completion of these projects is expected to occur within the next two years.
### Long-Term Debt

The following is a summary of long-term debt:

<table>
<thead>
<tr>
<th>Maturity date</th>

<td>2032</td>
<td>3.95%</td>
</tr>
<tr>
<td>Total debt</td>
<td></td>
<td>116,867,759</td>
</tr>
</tbody>
</table>

Interest expense on the above long-term debt was $4,266,562 and $4,970,957 for 2016 and 2015.

Proceeds of long-term debt have been used by the College to primarily finance building and construction programs, as well as student loan programs. The College is required to maintain various reserve accounts in conjunction with the debt agreements that are reported as deposits with bond trustees on the statements of financial position. Deposits with bond trustees are classified as Level 1 in the fair value hierarchy. Certain debt is collateralized by municipal bond insurance.

In December 2010, the College borrowed $15,310,000 through the Schenectady County Capital Resource Corporation, utilizing a tax-exempt revenue bond. JPMorgan Chase acted as the purchaser of the bond. The debt will be used to finance $15,000,000 of the College’s $30,000,000 Deferred Maintenance Program. The proceeds have been used for the renovation and rehabilitation of portions of existing buildings and other improvements located on the campus, as well as the acquisition and installation of certain machinery and equipment in order to upgrade existing educational facilities, and other directly or indirectly related activities for use by the College, as well as pay for costs of issuance. The final maturity of the bond will be December 1,
2040, subject to optional tender by JPMorgan Chase on December 1, 2017. The interest rate is variable at 67% multiplied by one-month LIBOR plus 100.5 basis points. As of June 30, 2016, the College had drawn down approximately $15,292,000 against this borrowing.

In connection with this tax-exempt financing, the College entered into a forward starting interest rate swap with JPMorgan Chase. The effective date of the swap was December 1, 2011. The original notional amount was $15,310,000 and the fixed rate of 2.358% is paid to JPMorgan Chase. Included within accounts payable in the statements of financial position at June 30, 2016 and 2015, the fair value of the swap was $393,166 and $637,492, respectively. The College receives the variable rate of 67% of 1-month LIBOR. The termination date is December 1, 2017. The interest rate swap is classified as Level 2 in the fair value hierarchy.

In April 2012, the College borrowed $21,640,000 through the Schenectady County Capital Resource Corporation, utilizing a tax-exempt revenue bond. The debt was used to refinance amounts outstanding on prior debt issues. The interest rate is fixed at 3.82%. The final maturity of the bond will be July 1, 2032, subject to an optional redemption on June 1, 2022.

In November 2013, the College borrowed $40,410,000 through taxable financing, with JPMorgan acting as the underwriter. The debt will be used for the project costs of various building renovation/construction projects through 2019. The interest rate is fixed at 5.642%. The final maturity of the bond will be November 15, 2043 with a balloon payment due.

In June 2015, the College borrowed $10,215,000 through taxable financing, with JPMorgan acting as the underwriter. The debt will be used for the project costs of various building renovation/construction projects occurring over the next five years. The interest rate is fixed at 4.877%. The final maturity of the bond will be July 1, 2035 with a balloon payment due.

In October 2015, the College borrowed $28,325,000 through taxable financing, with JP Morgan Chase acting as the underwriter. The debt was used to refinance amounts outstanding on prior debt issue. The interest rate is fixed at 3.950%. The final maturity of the bond will be July 1, 2031.
Principal payments and maturities of long-term debt at June 30, 2016 are summarized as follows:

<table>
<thead>
<tr>
<th>Year ending June 30:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2017</td>
<td>$1,988,943</td>

<td>(1,426,700)</td>
</tr>
<tr>
<td>Total long-term debt</td>
<td>$116,867,759</td>
</tr>
</tbody>
</table>

**Line of Credit**

The College has an unsecured line of credit in the amount of $5,000,000 with Bank of America, which was renewed and expires March 21, 2017. Each advance under the line of credit will carry one of two interest rates: a variable rate equal to the Bank of America prime rate or a fixed rate equal to the one-month LIBOR rate plus 0.70% (adjusted each month). During the years ended June 30, 2016 and 2015, the College had not borrowed against this line of credit.

(8) **Benefit Plans**

(a) **Retirement Plan**

The College has a defined contribution retirement plan under arrangements with Teachers’ Insurance and Annuity Association and College Retirement Equities Fund (TIAA-CREF) and Fidelity, which provide for purchases of annuities and investments for all of its faculty members and nonacademic employees.

The College’s contribution expense under this plan was $5,396,052 and $5,277,684 for the years ended June 30, 2016 and 2015, respectively.

(b) **Postretirement Healthcare Plan**

The College has also elected to pay for a portion of healthcare benefits for retired employees based upon years of service at retirement date. The College recognizes the cost of healthcare benefits on an accrual basis over the working lifetime of employees.

The College provides health insurance benefits for eligible employees upon retirement and recognizes the overfunded or underfunded status of a defined benefit postretirement plan as an asset or liability and recognizes changes in that funded status in the year they occur. The College uses a June 30 measurement date for its postretirement healthcare plan (the Plan).
The Plan’s funded status, amounts recognized, significant assumptions used, contributions made, and benefits paid as of and for the years ended June 30, 2016 and 2015 are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Change in benefit obligations:</td>

</tbody>
</table>

| Weighted average assumptions as of June 30: |           |           |
| Discount rate – benefit obligation | 3.20%     | 4.09%     |
| Discount rate – periodic postretirement benefit cost | 4.09      | 3.94      |

For measurement purposes, a 6.7% annual rate of increase in the per capita cost of covered healthcare benefits was assumed for 2016. The rate was assumed to decrease to 6.2% in 2017, and then decrease gradually from 5.7% to 4.4% for 2018 and thereafter.

<table>
<thead>
<tr>
<th>Components of net periodic benefit cost:</th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>

Included in institutional support are $4,577,129 and $4,161,070 of fund-raising expenses for the years ended June 30, 2016 and 2015, respectively. Costs incurred include expenses related to solicitation activities to obtain gifts and bequests, as well as special cultivation events that may result in contributions that will be received in future periods.

(11) Collections

The College’s collections are made up of approximately 19,000 objects and their estimated fair value is approximately $19,200,000. The College’s policy is not to capitalize its collections. The College’s collections comprise paintings and portraits, furniture, works on paper, scientific instrumentation, and other objects.

The College’s collections are held for educational, research, scientific, and curatorial purposes. Each of the items is catalogued, preserved, and cared for, and activities verifying their existence and assessing their condition are performed periodically. All proceeds resulting from the deaccession of objects from the permanent collection are allocated for the benefit of the collections. During the years ended June 30, 2016 and 2015, no objects were deaccessioned.

(12) Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, management has evaluated events subsequent to June 30, 2016 and through October 26, 2016, the date on which the financial statements were issued.
