

Personal Legal Consultation

From time to time, we all need answers when it comes to legal matters. For personal legal counseling on most issues, we offer free expert attorney consultation over the phone.

In case of a more extensive legal situation, we offer referrals to a legal office in your community for face-to-face consultations. If referred to an outside source, we pay for the first consultation and offer a 25% reduced rate on any further fees.

The legal services can help with everything from:

- Divorce and custody issues
- Creating a Will
- Purchasing a home
- Real estate questions
- Health/Disability
- Immigration questions

Don't spend another day worrying or wondering about your rights, laws or policies.

Find out all the answers you need today.
