Union College Disability Accommodations Process

Union College provides support services and reasonable accommodation to students with medical and/or psychiatric disabilities who qualify under the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973.

Disability and Extreme Medical Condition Housing Accommodations Requests:

1. Requests will be considered on a case by case basis.
2. Students will be notified if they have been approved or denied for housing accommodations after the accommodations committee has met.
3. Submission of an application does not guarantee that the accommodation request(s) will be granted.
4. Special needs housing requires advanced planning and documentation. Student wishing to apply for housing accommodations must complete the appropriate forms, available at the bottom of this page.
5. Students with documented disabilities or extreme medical conditions who are requesting accommodations should meet with either Amanda Bingel (Director of Residential Life) or Shelly Shinebarger (Director of Student Support Services). (A phone call can be scheduled during the summer months)
6. Special needs housing accommodations are intended for individuals with a medical disability, which substantially limits their ability to function daily in a residence hall environment.
7. There is a difference between housing accommodations and housing preferences. Student preferences for certain types of housing (ground floor, air conditioning, etc.) cannot be granted, whereas reasonable accommodations are provided to student with documented disabilities.

Documentation Forms:

- Form A: (to be completed by student) [all requests]
- Form B: (to be completed by physician) [all requests]
- Form C: (to be completed by specialist) [all requests]*

*All students must submit Forms A and B. Students requesting air conditioning must ALSO submit Form C.

Students approved for air conditioning due to extreme medical conditions may be required to:

If not housed in College Park Hall:

- Provide their own air conditioning unit (Facilities Services will provide specifications)
- Contact Facilities Services through the online work request system to install the air conditioning unit. Students may not install their own unit and must schedule installation with a qualified staff member. We cannot guarantee that your air conditioning unit will be installed on the first day you arrive to campus. Every effort will be made to install units within the first 1-2 weeks of classes.

****Please note:** due to the generally mild climate in Schenectady, NY the residence halls (with the exception of College Park Hall) are not air conditioned, nor are students permitted to provide air conditioning units for their rooms except in the rare instances of disability. As part of the standard furniture and room arrangements, some student rooms are carpeted. Students with allergies or asthma

generally do well in this environment without any special arrangements. If allergies or asthma form the basis of a special housing request, full medical documentation will be required, including skin test results for allergies. Those students whose conditions are substantially limiting to a major life activity must provide detailed medical documentation to show why the condition qualifies as a disability.
