What is Kronos?
Kronos is a website where employees can record hours worked for their job. As an Administrator it is only necessary for you to use Kronos to submit Vacation time.

When do I enter Vacation time?
Kronos can be used to request vacation time off in advance, which is encouraged. Each employee has an approver for their requests. Once approved the requests will stay in Kronos until the pay period comes when it is exported. If vacation needs to be reported for a prior pay period it can still be entered through Kronos before the end of the calendar year. All vacation is due to Payroll before the end of the year.

***NOTE: If you are ALSO a Manager, first click the Plus Sign at the top to switch to the Employee workspace. This guide focuses only on using Kronos as an employee.***

***NOTE: Requests with a Start and End date that span weekends will INCLUDE Sat and Sun. Use the Plus sign to add multiple non-consecutive days within the same request.***

Adjusting a Submitted Request

An employee can retract a request if not yet approved, or cancel a request (which requires approval). For example, if the employee wants to take one less day of vacation, but their original request is already approved, they could cancel the original request and submit a new one instead.

Only the manager can make a direct adjustment to the request.

To cancel a request:

1. Open the My Calendar widget.

2. Find the day the request is on, right-click it and choose Cancel Request

3. Type in a Note (optional) and click Cancel Request.
Reviewing Time Off Taken
Employees can review their My Calendar screen, days in green are days with time off requests. Switching to the Month view is recommended.

1. At the top next to Current Pay Period click the calendar button and type in a date range to review. Click Apply.

Viewing Vacation Balance
You can use the My Calendar or Request Time Off screens to view Vacation balances

Available Balance
The Available Balance is your Vacation accrued as of a specific date. It increases on the first day of each new pay period when an employee accrues more vacation time. It decreases when vacation is taken for any prior date.

- Available Balance at bottom of My Calendar
  - Is as of the first day in the range selected in the upper right
  - Current Pay Period

- Available Balance in the Request Time Off screen
  - Is as of the date specified in Accruals on field
  - Accruals on: 11/14/2019

Ending Balance
The Ending Balance is always as of the last day in the calendar year 12/31. This balance accounts for accruing additional vacation each pay period and deducting any current and future requests already entered into the system. The Ending Balance should never be negative.
