- 1 Graduation rates are based on a cohort of full-time, first-time, first-year students and do not include students who have transferred into the college from another institution.
- 2 The incoming cohort may be adjusted for students who left school to serve in the armed forces or on official church missions or with foreign aid service of the federal government, or students who died or were totally and permanently disabled.
- 3 Because providing substantial preparation for students to enroll in other institutions is not part of the college's mission, transfer-out rates are not calculated.
- 4 Data by financial aid category is a good faith effort to comply with the Higher Education Act provision that became effective in August 2008.
