

**CLASS OF 2014  
FIRST DESTINATION REPORT**

UNION COLLEGE  
SCHENECTADY, NEW YORK

## **Methodology**

For the purposes of this survey, we define the Class of 2014 as those students who completed an undergraduate degree at Union College and graduated in either December 2013 or June 2014.

The primary means by which we collected information from members of the Class of 2014 was our "First Destination" survey. We invited members of the Class of 2014 to take the survey, which was made available both online and via paper, beginning in April 2014 and continued to remind them about our survey until it closed at the end of December 2014. Graduates who had already responded were invited to update their information in the event their post-graduation plans had changed. In the fall of 2014, we contacted those members of the class who had not yet responded and conducted an abbreviated version of the survey over the phone.

Additionally, in an effort to learn about the post-graduation activities of as many members of the Class of 2014 as possible, we searched for usable data beyond our survey. We found a significant amount of usable employment information about the Class of 2014 on LinkedIn, the professional social networking service. Combining data from all of these sources, we were able to account for the post-graduation activities of 86 percent of 2014 graduates.
