## Eleven Students Inducted into Math Honors Society, Pi Mu Epsilon

On Friday, May 24, eleven students were inducted into the Union College chapter (the Alpha Tau chapter) of the national undergraduate mathematics honors society, Pi Mu Epsilon (PME). The purpose of this organization is the promotion and recognition of scholarly activity in the mathematical sciences among student at the academic institutions that have been chartered as Chapters of the Society. The 11 inductees all applied for membership earlier in the spring term. If you would be interested in joining PME, then work to excel in your math courses, get involved in math-related activities, and look for the call for applications next spring.
