

Union College Certification of Attention-Deficit/Hyperactivity Disorder

The student named below has begun the process to request services with Student Accessibility Services (SAS) at Union College. To determine eligibility and provide services, we require documentation of the student's disability.

Under the Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, individuals with disabilities are protected from discrimination and may be entitled to reasonable accommodations. To establish that an individual is covered under the law, documentation must indicate that a specific disability exists and that the identified disability substantially limits one or more major life activities. A diagnosis of a disorder in and of itself does not automatically qualify an individual for accommodations. The documentation must also support the request for accommodations and academic adjustments.

Release of Information

I, (student print name) _____, hereby authorize the release of the following information to Student Accessibility Services at Union College for the purpose of determining my eligibility for educational accommodations.
