**President (Bohn):**
Organizational Review Board Selection
- Tasked with selecting amongst ourselves this selection
  - Pool 4 through an application process evaluating leadership
  - 4 more volunteers preferable one from each class rep
- We have to get them in by the first week of October
- (RP) many people evolved in leadership will be very bust. This may affect to process
- (SB) the idea of using 8 that only 1 has to be there at all times therefore if there is conflicts we have reserves. We are only involved in 4 people on forum and 4 people at large
- (SB) we also currently do not have any first year reps and it is highly unlikely that many of the first years do not have leadership positions in many of the organizations at Union
- (RR) elections will be on the 9th so that would give them enough time for training
- (SB) that works out nicely. We will only take three for now and wait for the first year reps
- (RR) elections are on wednesday. Can we have them to come to forum that day,
- (RP) yes I think there is no rease to make them wait a week

CDTA contract renewal
We need to vote on whether we will review this contract. It gives students the ability to use the bus routes for free. Last year we had #3452 rides. This really does help, we only spent 4000 dollars last year and we are capped at 6000.
(TW): Motion to approve the 6000 dollar cap on the CDTA expenditures from 2019-210 academic year

Advisor’s Report (Dougherty):
Meet Katie the new assistant director of student activity
Do we like having speaking come into inform us about current happening on changes?
(RR): Yes. I think that a lot of misinformation can go around and it is useful to have us to be able to set the record straight.
(BH): I agree. They are very informative.
Do we want a larger role in orientation
(Immy): Greek life cannot be involved which can really serve to misinform students about Greek life. It would be nice to have first years more informed about this process.
(CP): We didn't have an orientation this year because we did not have a sustainability coordinator. We should have more of an opportunity to be informed about sustainability on campus.
(NS): We should have four sit on a panel during orientation so that students can ask us questions about campus life.
(TW): Greek life has been on this campus for a very long time. Stigma has been placed on us by administration
(Immy): The administration argues that Greek life is not apart of the first year experience
(Lauren): Do you guys have info session for recruitment
(Immy): Yes we have mock recruitment and on for sessions in the spring.
(Immy): We wish to have first years a part of this conversation because we do not want anyone to be joining for the wrong reasons. Many times people only hear about Greek life in the context of parties.
(BH): I agree. When I first came on this campus I did not know that there was a strong Greek influence on campus. It is a shame that people are so uninformed
(RR): Do you think part of the reason administration feels that way is because of the way that it is portrayed in the media?
(SB): I do not disagree. I do think that there must be information explaining so that people can know about the biggest liability on campus.
(MW): I think that after the students decide to come here, educating theme bit what Greek life is harmless if the problem is with the parents.
(Lauren): I hear you. Is there anything you suggest for forum in orientation specifically?
(RP): Leadership is one of the things we try to teach people the most. I think that if we cannot have people present, it would be nice for everyone to prepare a bulb that can be sent out about our own role in getting involved in student leadership on campus.
(GY): We can make a video to show.
(SB): We can do something during the Minerva night such as our own station so that we can answer questions and get the word out.
(NO): I feel like we it is very important to teach people about the power we have and the voice we have outside of just being a student government in order to attract a greater audience.
