A. Confidential Resources

Individuals who are confidential resources will not report information to law enforcement or College officials without your permission, except in extreme circumstances, such as a health and/or safety emergency, imminent threat to self or others, or where there is mandatory reporting of suspected child abuse. Accordingly, sharing information with a confidential resource will not result in a report to the College, trigger any grievance procedure or investigation, or disciplinary action.

Confidential Resources are not required to report the details of an incident to the Title IX Coordinator. Confidential resources may provide anonymous reports which contain no identifying information such as the date or location of the incident to support accurate statistical data and/or support educational and prevention efforts on a community-wide basis but will honor requests for confidentiality.
